

# Spring Flowers & Foliage

## 1. Spiraea Magic Carpet

Lovely golden orange foliage with the new foliage emerging red. As this display fades the pink flowers take over from mid summer onwards.

## 2. Geranium Johnson's Blue

Intense blue flowers in May contrast beautifully with the Spiraeas foliage. Cut back hard after flowering to promote second flowering in late summer.

## 3. Alchemilla mollis

Bright lime to yellow flowers emerge in April and May and droplets of water hold on the leaves after rainfall. Best to cut off flowers before they seed.

## 4. Achillea Walter Funkle

Deep red saucer shaped flowers from June onwards. Cut back all stems to the base in November

## 5. Veronica Inspire Blue

Spikes of deep blue flowers abound throughout mid summer.

## 6. Polemonium Bressingham Purple

Deep purple foliage with dark blue flowers in spring
